

Abstract

Overview:

The project is related to placement cell, where it manages all the CDPC related activities and this will remove the communication gap between the CDPC and students. Students are notified on each and every update through this website and each student has a flexible management system. User gets the status related to his application to the company through email. Students also solve their FAQs through sending queries to the placement officer. Our target is to enhance all the features and providing a flexible environment to the users.
